Sub: - **JE LICE held on 08-09-2024 - questions are of high standard, confusive and having more than one correct answer- requesting to grant relaxation / grace marks- req.**

Madam,

We wish to bring the following to your kind notice for favour of necessary action.

BSNLEU, vide its letter number, has already brought to your kind notice, about the problems faced by the candidates in the TT LICE, held on 08-09-2024. In the similar manner, our Union has also received complaints from candidates, who have faced difficulties in the JE LICE, which was held on the same day.

It is complained by the candidates that, the questions asked in the JE LICE are of high standard. Further, it is also complained that, many questions are confusive, some are out of syllabus and that some questions had more than one correct answer. We have enclosed herewith a gist of the complaints received from the candidates.

In view of the foregoing, we request you to kindly get the matter examined and to render justice to the candidates by granting relaxation / grace marks.

Thanking you,

Yours sincerely,

[P. Abhimanyu]
General Secretary

Encl: As above.

SECTION-1

ELECTRICAL, ELECTRONICS AND COMMUNICATION

Q.No: 25 The advantage of star-connected supply system is that:

Observation: Options A and B are right answers

- A) Less insulation
- B) Used for low voltage

Low insulation and low voltage usages are the advantages of star connections. Hence both A and B are the right answers

Q.No: 41 Which type of modulation is used for radio transmission?

Observation: Options B and D are right answers

- B) Frequency Modulation
- D) Amplitude Modulation

Both FM (Frequency Modulation) and AM (Amplitude Modulation) are used in radio transmission

SECTION-2

DEPARTMENTAL PRACTICES

Q.No: 54 Which is not the facility provided by switching cubicle?

Observation: (1) Option C is not a facility which doesn't comply the meaning of the question.

(2) Both C and D are contradictory nature in meaning. If option D is correct, option C opposes it.

(3) Both C and D are contradictory nature in meaning. If option C is correct, option D opposes it.

Option C) Does not monitor the total exchange load current

Option D) Monitoring the total exchange load current

Q.No: 55 Mission of ITU (International Telecommunication Union) is to:

Observation: Out of syllabus (ITU not included in the Section-II Departmental practices)

Q.No: 58 In BSNL, Network Management & Surveillance System (NMSS) is used to control:

Observation: Out of syllabus (NMSS not included in the Section-II Departmental practices)

Q.No: 67 What is the expansion of SWOT?

Observation: Out of syllabus (SWOT not included in the Section-II Departmental practices)

Q.No: 74 How many categories of Business Areas (BA) are there in BSNL?

Observation: Wrong answer, correct answer is 3

Bharat Sanchar Nigam Limited (BSNL) has three (3) business area (BA) categories: Platinum, Gold, and Silver. These categories cover all of BSNL's products and services.

Q.No: 75 Generally, Life of the battery bank having more than 200AH is _____.

Observation: Wrong answer, correct answer is 8 to 10 years.

The lifespan of a 200Ah Lead Acid battery is influenced by several factors, including usage patterns, charging practices, and environmental conditions. On average, users can expect a lifespan of 8 to 10 years with proper care and maintenance.
